THE
UPPER AND MIDDLE SCHOOLS,
PECKHAM, LONDON, S.E.

SIXTEENTH YEAR.

(Near the Peckham Rye Station, South London Line; Terminus,
London Bridge or Victoria.)

CONDUCTED BY

JOHN YEATS, LL.D., etc.

PUPILS are received from the commencement of their Ninth Year; they enter the Upper School on attaining their Fourteenth, or on proving themselves able to do the work of the Higher Classes. The Terms (from £45) include the use of Books and Stationery, and free parents or guardians from all unforeseen extras.

There are no degrading punishments of any kind; but unruly boys cannot be retained in the schools.

Every boy is, as far as possible, well grounded in English, made to write a hand fit for business, and trained to be quick at accounts. French and German are taught by native Masters, and spoken by the Principal. Other Languages, ancient and modern, are also taught. Special Teachers attend for the Elements of Science; for Land Surveying, Levelling, and Plotting; for Mechanical, Geometrical, and Architectural Drawing. The four divisions of the school-year are equal, and the Holidays short. The Premises are spacious and airy; Peckham Rye Common is near, and available for cricket, football, etc.

A Prospectus, and Reports of Examiners on every Pupil, may be had on application; also Testimonials from Parents (from Scotch Parents particularly), and recognised public authorities, including the names of the late Professor G. BOOLE, F.R.S.; The Right Hon. LORD BROUGHAM, F.R.S., etc.; W. CROOKES, F.R.S.; Professor WM. HUGHES, F.R.G.S.; Dr. G. KINKEL, F.R.G.S., etc.; Professor L. LEVI, LL.D.; Dr. L. SCHMITZ, F.R.S.E.; Professor L. STIEVENARD; THOS. TATE; J. TILLEARD, etc., etc. See also the Reports of the Examiners in the Science and Art Department, Kensington, 1867 and 1868.

Twenty-seven Pupils were examined in Geology on May 17th, 1867; of these twenty-three passed. Seventy-four Pupils were examined in Physical Geography on May 28th; of these sixty-one passed. Ten Pupils took Prizes in both subjects; seven in one subject only.

N.B.—*One Half-year commences on or about the Twentieth of January; the other on or about the Twentieth of July.*

TESTIMONIAL FROM LORD BROUGHAM.

4 GRAFTON STREET, 30th June 1864.

MY DEAR DR. Y.—I was very much obliged to you for your kindness in sending me the excellent answers on the British Constitution by your very distinguished pupil Mr. H. P. (of Perth). I have read the papers with great interest, and except some slight mistakes (as writ for statute in one or two places) I suppose it is accurately given.—Believe me truly yours,
H. BROUGHAM.

N.B.—*A fac-simile of the above may be had.*—J. Y.

If the sum be Guineas, not Pounds, for each Guinea add a penny to each month, or a farthing to each week.

YUILLE'S ESSENCE OF COFFEE.

OPINIONS OF THE PRESS.

YUILLE'S ESSENCE OF COFFEE we have used during our night labours, and found it invigorating, and pronounce it delightful; in fact, it is perfection, the finest we have ever used.—*The Times*, December 21st, 1867.

NEW MODE OF EXTRACTING THE ESSENCE OF COFFEE.—We had recently the pleasure of inspecting the new machinery constructed by Mr. Andrew Yuille, at 132 Trongate, for Extracting the Essence of Coffee, and have much pleasure in bearing our testimony to the ingenuity of the invention and the excellence of the article produced. The machinery is constructed upon the 'vacuum principle,' the whole essence of the bean being first extracted in air-tight vessels, and conveyed from thence by means of a pipe to the 'distillery,' where it is concentrated at a heat of from 110 to 120 degrees, under a vacuum of 29 to 29½ inches. The vessels and pipes which the liquid passes through are made of copper and lined with silver, so as to prevent the slightest taint from verdigris; while all the aromatic elements of the bean are preserved without being in the slightest affected with that burned taste so peculiar to the generality of the Essence of Coffee, by being concentrated at the moderate degree of heat we have indicated. The finest quality of beans is used, as it is found cheapest and produces the best article; and we have no doubt but Mr Yuille's Essence of the Coffee Bean will soon become an article of daily use by lovers of good cups of coffee.—*Morning Journal*, 12th December 1867.

YUILLE'S ESSENCE OF COFFEE.—To all who wish, in good weather or bad weather, a capital companion, we recommend a flask of Yuille's Essence of Coffee. If hot water can be had anywhere—*al fresco*, or under roof—it will always prove a friend. The flavour is magnificent, there is all the aroma of the famed Jamaica bean, and it carries the pith and strength with it. It is evidently carefully manufactured by expert chemists. We understand that in the seaman's forecastle this Essence is a great favourite. It takes the place of the traditional grog on board ship. What is found to be so good at sea can be adopted with profit and pleasure on land.—*Greenock Herald*, 10th Jan. 1868.

Having used Mr Yuille's Essence of Coffee, we have every confidence in recommending it, and we have no doubt it will soon find its way into general use.—*Christian News*, December 14th, 1867.

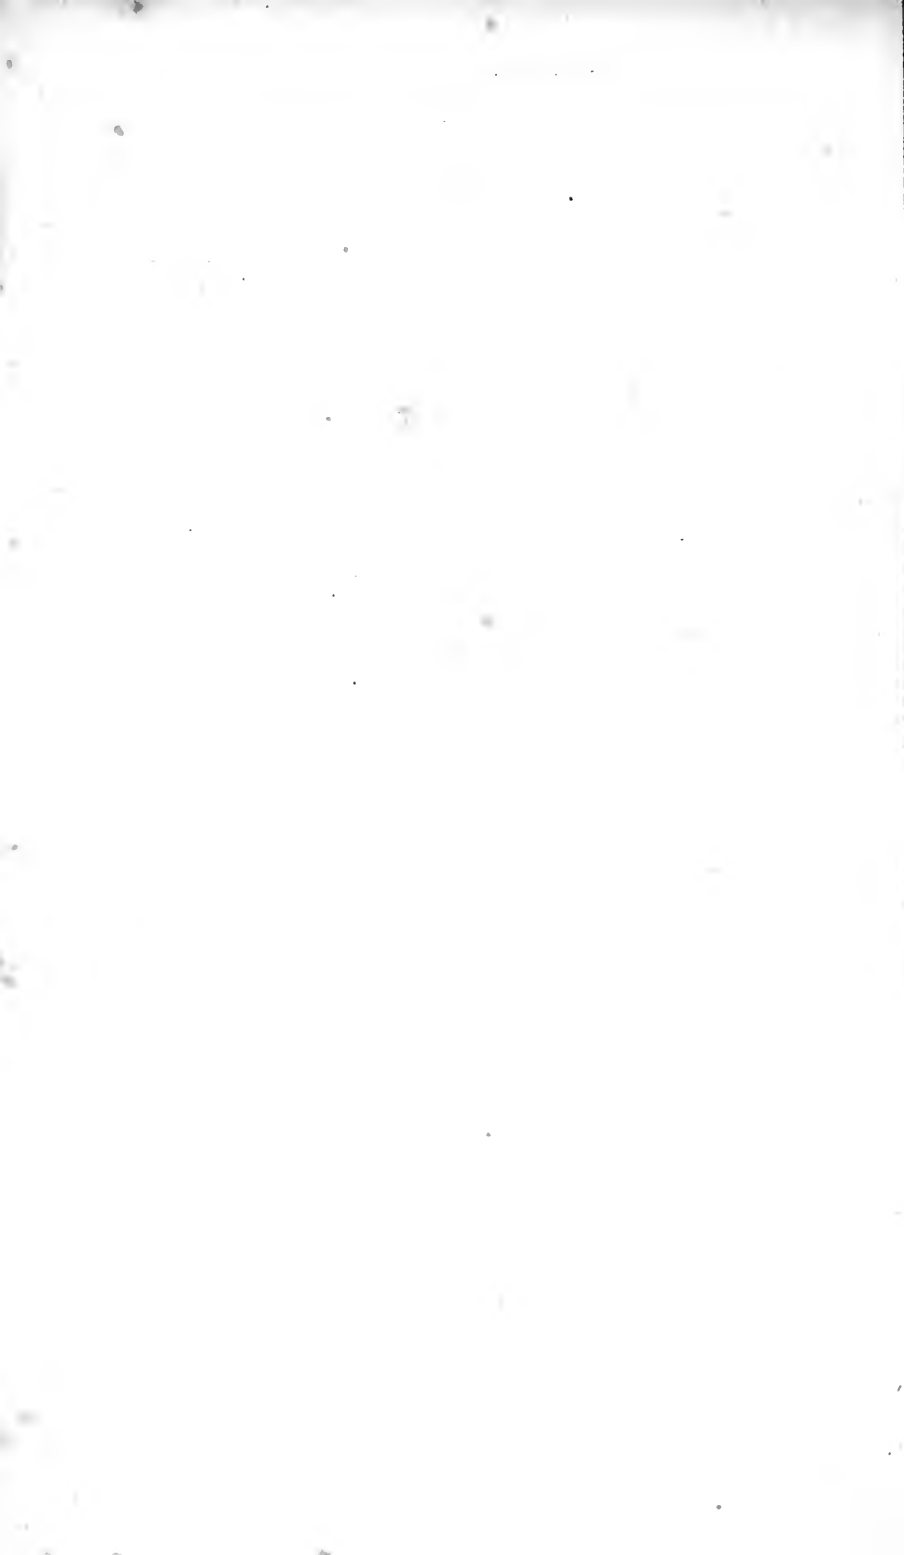

YUILLE'S ESSENCE OF COFFEE.—This is a delightful beverage, containing, in an agreeable and convenient form, all the refreshing and aromatic properties of the roasted coffee bean. An eminent Analytical Chemist has certified as to its purity.—*Belfast News Letter*, 7th November 1867.

YUILLE'S ESSENCE OF COFFEE.—The partially new mode of extracting the Essence of the Coffee Bean, adopted by Mr Yuille, 132 Trongate, has succeeded in producing such an excellent article as to freely warrant him in applying to it the word 'perfection,' and ourselves in commending it to the favourable consideration of all lovers of a cup of good coffee. The essence is first extracted from the bean in silver-lined air-tight vessels, and afterwards concentrated down in a silver-lined copper apparatus, at the moderate heat of 120 degrees. The extracting and boiling machines are constructed on the vacuum principle, and the essence, after it has gone through all the operations, is singularly mild in taste and flavour, being entirely free from that disagreeable burnt treacle taste peculiar to nearly all the Essences of Coffee we have hitherto been accustomed to. The whole aroma of the bean is preserved; and the Essence being sold at a moderate price, it is, on the whole, as cheap as coffee made in the ordinary way.—*Saturday Post*, January 11th, 1868.

**I**N submitting the SIXTY-THIRD EDITION of the EDINBURGH AND LEITH POST OFFICE DIRECTORY, the Publishers again gratefully acknowledge the very large amount of patronage hitherto received, and hope that the present issue will be found such as to merit a continuance of public support and confidence.

The Publishers return thanks to the gentlemen who have kindly supplied valuable information and data for the work.

This year's publication has been very considerably increased; about 5000 names having been added to the General Directory. The Streets and Professions Directories have also been enlarged and very carefully revised.

They have every confidence in the accuracy and completeness of the present issue; no pains having been spared in the endeavour to make the Directory worthy of the high favour it has enjoyed from the public for so many years.

The Map of the County is again given by the kind permission of Messrs A. & C. Black; and the Plan of Edinburgh and suburbs, prepared expressly for this Work, is revised down to date.

*25th May 1868.*

# GENERAL INDEX.

|                                                                  | PAGE |                                                                    | PAGE     |
